Notes

Notes

Hear now. And always

Cochlear is dedicated to helping people with moderate to profound hearing loss experience a world full of hearing. As the global leader in implantable hearing solutions, we have provided more than 750,000 devices and helped people of all ages to hear and connect with life's opportunities.

We aim to give people the best lifelong hearing experience and access to next generation technologies. We collaborate with leading clinical, research and support networks to advance hearing science and improve care.

That's why more people choose Cochlear than any other hearing implant company.

Please seek advice from your health professional about treatments for hearing loss. Outcomes may vary, and your health professional will advise you about the factors which could affect your outcome. Always follow the directions for use. Not all products are available in all countries. Please contact your local Cochlear representative for product information.

In Australia, Cochlear[®] Nucleus[®] implant systems are intended for the treatment of moderately severe to profound hearing loss.

The Kanso 3 Sound Processor is dust and water resistant to level of IP68 of the International Standard IEC60529. The Kanso 3 Sound Processor with Aqua+ is dust and water resistant to level of IP68 of the International Standard IEC60529, and can be continuously submerged under water to a depth of up to 3 metres for up to 2 hours. Refer to the relevant User Guides for more information.

The Cochlear Kanso 3 Sound Processor is compatible with Apple and Android devices, for compatibility information visit www.cochlear.com/compatibility. The Cochlear Nucleus Smart App is available on App Store and Google Play.

For information regarding the compatibility of Cochlear's Sound Processors with True Wireless devices, visit www.cochlear.com/compatibility
