Hear now. And always

About the Cochlear™

KANSO®

Sound Processor

The Cochlear™ Kanso® Sound Processor is an off-the-ear sound processor that's so discreet it's barely noticeable, so small and comfortable you can forget you're wearing it.

This offers greater confidence that you can live your life your way.

It does this without compromising on hearing performance technology, incorporating the same industry-leading features as the Cochlear™ Nucleus® 6 Sound Processor, making it even easier for you to find the joy of hearing.

DISCREET

It's small and worn
off-the-ear

Notes

Hear now. And always

As the global leader in implantable hearing solutions, Cochlear is dedicated to helping people with moderate to profound hearing loss experience a life full of hearing. We have provided more than 550,000 implantable devices, helping people of all ages to hear and connect with life's opportunities.

We aim to give people the best lifelong hearing experience and access to innovative future technologies. We have the industry's best clinical, research and support networks.

That's why more people choose Cochlear than any other hearing implant company.

 Cochlear Ltd (ABN 96 002 618 073) 1 University Avenue, Macquarie University, NSW 2109, Australia T: +61 2 9428 6555 F: +61 2 9428 6352

Please seek advice from your health professional about treatments for hearing loss. Outcomes may vary, and your health professional will advise you about the factors which could affect your outcome. Always read the instructions for use. Not all products are available in all countries. Please contact your local Cochlear representative for product information.

The Kanso Sound Processor with Aqua+ is water resistant to level IP68 of the International Standard IEC60529 when used with LR44 alkaline or nickel metal hydride disposable batteries. Refer to the relevant User Guide for more information.
