

About us

The Cochlear Hearing Center of San Antonio proudly serves our San Antonio and South Texas communities with state-of-the-art diagnostic audiological services, implantable hearing solution evaluations and follow-up care.

We specialize in serving patients who already have a Cochlear™ Nucleus® Implant or Cochlear Bone Conduction Solution or who are exploring implantable hearing technology.

Call, email or stop by the Cochlear Hearing Center to learn more about how we can help. Walk-ins welcome!

Upgrades

Already have a Cochlear hearing solution? We sell the latest sound processor upgrades for the Nucleus and Baha® systems. Schedule an appointment to see the latest technology and discuss how it might help enhance your hearing experience.

Hear now. And always

As the global leader in implantable hearing solutions, Cochlear is dedicated to helping people with moderate to profound hearing loss experience a life full of hearing. We have provided more than 700,000 implantable devices, helping people of all ages to hear and connect with life's opportunities.

We aim to give people the best lifelong hearing experience and access to innovative future technologies. We collaborate with leading clinical, research and support networks.

That's why more people choose Cochlear than any other hearing implant company.

Please seek advice from your health professional about treatments for hearing loss. Outcomes may vary, and your health professional will advise you about the factors which could affect your outcome. Always read the instructions for use. Not all products are available in all countries. Please contact your local Cochlear representative for product information.

Views expressed are those of the individual. Consult your health professional to determine if you are a candidate for Cochlear technology.

The Cochlear Hearing Center is owned and operated by Cochlear Clinical Services, LLC.

Jerome – Nucleus recipient

Your partner in connecting with life's opportunities through implantable hearing, every day, everywhere.

Cochlear™ Nucleus® Implant System

Sound processors

Off-the-ear
Kanso® 2

Behind-the-ear
Nucleus® 8

We offer a choice of sound processors to fit your lifestyle and your wearing preference with a behind-the-ear or off-the-ear solution. The Kanso 2 and Nucleus 8 are the smallest and lightest¹ hearing solutions available, combining comfort and wearability with proven hearing performance, so you can hear your best anywhere, any time.

“I am able to be in a noisy situation and... I don't have to read lips anymore.”

Suzanne – Nucleus recipient

Bone conduction solutions

Sound processors

Osia® 2

Baha® 6 Max

Baha® 5 SuperPower

Cochlear's portfolio of bone conduction solutions offers implantable and non-surgical options that are designed to meet your individual needs and provide unparalleled hearing performance.

“I love having 360 degrees of sound again. It sounds full. It sounds normal.”

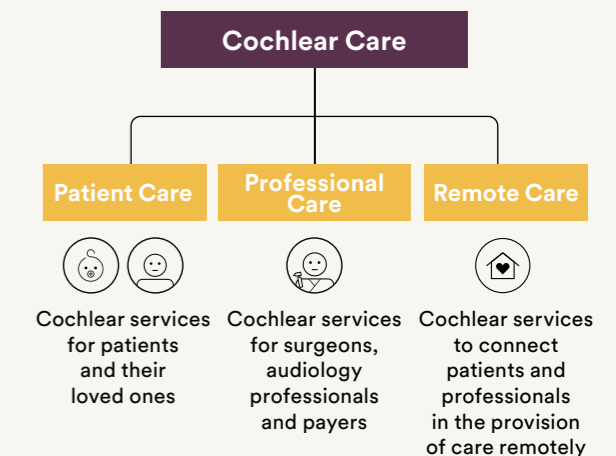

Aaron – Baha recipient

Cochlear Care

Hearing is an integral part of how we connect and communicate. From first learning about hearing implants to living with the technology, Cochlear Care services will provide peace of mind that you have access to services designed to support you along your individual hearing journey. Throughout your experience, you have control over where and how you access the personalized services that you need, saving you time.

With Cochlear Care, we will help you experience a life full of hearing.
