Important Medical Information

This person is implanted with Cochlear™ technology. A metal device is implanted under the skin behind the ear, and external equipment is worn behind the ear or on the body. Without the equipment, this person cannot hear.

The system may activate airport security metal detectors.

Prior to going under MRI, please review the MRI information supplied with this individual's device. Scanning under different conditions may result in severe patient injury or device malfunction. MRI safety information for all Cochlear technology is available at the following: **Online:** www.cochlear.com/us **Text:** "MRI" to 56824

Message and data rates may apply. Learn more about Cochlear's Privacy Policy at www.cochlear.com/privacy

 Cut along the black dashed line and then fold in half along the grey dotted line.
